

# NETHMI CHAMATHKA

## JUNIOR BUSINESS ANALYST

122/A/3, Maharanugegoda, Ragama • 078-447-3989 • chamathkanethmi11@gmail.com  
[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

## PROFESSIONAL SUMMARY

Junior Business Analyst with experience supporting requirements gathering, process mapping, SRS documentation, testing, and UAT for government digitalisation projects. Comfortable working with business users and development teams to turn requirements into clear system documentation. Final-year IT student with knowledge of Agile delivery, SQL, data validation, and business analysis tools.

## WORK EXPERIENCE

### Trainee Business Analyst — Informatics International Ltd

July 2025 – January 2026

- Gathered and analysed requirements for two government systems: HRMIS for the Ministry of Public Administration and the Vehicle Registration and Transfer System for the Department of Motor Traffic.
- Identified 15+ functional and process gaps and documented them for system redesign discussions.
- Prepared functional and non-functional requirements for development teams during sprint delivery.
- Created AS-IS and TO-BE process flows to help business users and developers understand current and proposed workflows.
- Prepared SRS documents for stakeholder review and sign-off.
- Designed test cases and supported UAT sessions with 8+ business users, recording defects before release.
- Performed backend data validation and logic checks to confirm that delivered features matched approved requirements.

## SKILLS

### • Business Analysis

Requirements Gathering • Gap Analysis • AS-IS/TO-BE Process Modelling • SRS Documentation • UAT • Test Case Design • Data Validation

### • Tools & Methods

Soho • Power BI • Figma • MS Excel • Agile • Scrum • SDLC • Git • GitHub

### • Technical Skills

SQL • Java • Python • JavaScript • React.js • Spring Boot

## EDUCATION

---

### BSc (Hons) Information Technology — Sri Lanka Institute of Information Technology (SLIIT)

January 2023 – Present    Expected graduation: 2027

- Capstone research project: Visual-Based Secure Elder Care Monitoring System Using Artificial Intelligence – leading data modelling, requirements engineering, and computer-vision logic design in a four-member team.

### G.C.E. Advanced Level — Biological Science Stream, Yasodara Vidyalaya, Colombo

2018 – 2022

## PROJECTS

---

### Medical History Management System – MERN Stack

March 2025 – May 2025

- Designed clinical workflows and role-based access for patients, doctors, pharmacists, and data-entry staff.
- Documented requirements and user flows based on healthcare business processes.

### Agri Connect – Smart Agricultural Web Platform | React.js, Spring Boot

March 2025 – May 2025

- Designed user journeys and system flows for an agricultural knowledge-sharing platform.

### Online Examination Management System – Java, MySQL

February 2024 – June 2024

- Designed the database schema and backend logic for exam sessions, registration, and result storage.

## CERTIFICATIONS

---

- Python for Beginners • Foundations of Project Management • Web Design for Beginners • Machine Learning for All
